Object of the Game

How to play the Game

To begin the game, each player spins the spinner. The player who spins the color furthest away from the beginning space goes first. Play proceeds to the left.

To play the game, each player moves his game piece to the space which matches the color on the spinner which he has just spun. Players take turns spinning the spinner, each player landing on a color space as shown by his spin and following any directions that are on the space which he lands on.

A player who lands on the purple space at the end of the path is the first one Home and wins the game.
